

HIGH-PERFORMANCE LEADERSHIP TRAINING

Learning Opportunity for Your Leadership Journey

As a follow-up to the book ***Creating and Leading High-Performance Organizations***, PB/T Consulting has created an amazing learning opportunity and course to reinforce the principles of high performance leadership. Employees, regardless of position in the organization, will learn how to communicate using high-performance language while also experiencing the nuances of how these principles are applied across the many management layers of the organization.

PB/T's high-performance leadership class is innovative in its material, presentation, facilitation, and student-driven learning. Students at all levels of the organization are exposed to essential and time-tested concepts and processes that, when patterned over time, create high performance.

Training to Take Your Organization to the Next Level

Course lectures are followed by facilitated exercises that allow groups of students to learn from each other and provide students with real-life outcomes applicable to their organizations. Students are also equipped with a Workbook to capture their thoughts and a Student Manual describing the learning responsibilities at the organization's operating, improving, and creating levels.

1: LEARNING

Six Modules Provide a Solid Foundation Leading to Transformational Leadership

2: INTERNALIZING

Recognizing How Your Contributions Affect Employees and High Organizational Performance via Four Modules

3: OPERATIONALIZING

In Four Modules, Learn Processes That Can Be Used to Create a High-Performance Culture

PB/T Consulting Can Help

Creating a high-performance organization means nurturing a culture where patterned high-performance behavior comes natural to your employees. That means defining an expected behavior and then teaching your organization to pattern that behavior over a long period of time. Eventually, the patterned behavior becomes the norm.
